The two members from the “Obstetrics, Gynecology and Reproduction” Editorial Board have been elected as Foreign Members of the Russian Academy of Sciences

Abstract

On June 02, 2022, the results of the elections to the Russian Academy of Sciences (RAS) were announced. The two members of the Editorial Board of our Journal were elected as Foreign Members of the RAS: Professor Jean-Christophe Gris (France) specialized in hematology-hemostaseology and Professor Sam Schulman (Canada) specialized in hemostaseology. The most prominent foreign scientists who have received recognition from the world scientific community are elected as Foreign Members of the RAS. In total, according to the results of the 2022 elections, 48 scientists from 24 countries became new Foreign Members of RAS. The Editors of the Journal congratulate Professor Jean-Christophe Gris and Professor Sam Schulman with election as Foreign Members of the Russian Academy of Sciences.

Keywords: Russian Academy of Sciences, RAS, foreign members of RAS, elections, hematology, hemostaseology

Два члена редакционной коллегии журнала «Акушерство, гинекология и репродукция» избраны в иностранные члены Российской академии наук

Резюме

02 июня 2022 г. были объявлены итоги выборов в Российскую академию наук (РАН). Два члена редакционной коллегии нашего журнала были избраны иностранными членами РАН: профессор Жан-Кристоф Гри (Франция) по специальности «гематология-гемостазиология» и профессор Сэм Шульман (Канада) по специальности «гемостазиология». Иностранными членами РАН избираются крупнейшие зарубежные ученые, получившие признание мирового научного сообщества. Всего по результатам выборов 2022 г. новыми иностранными членами РАН стали 48 ученых из 24 стран мира. Редакция журнала поздравляет профессора Жана-Кристофа Гри и профессора Сэма Шульмана с избранием в иностранные члены РАН.

Jean-Christophe Gris co-authored more than 278 scientific papers.

Sam Schulman was born on February 29, 1952. Professor Schulman (Fig. 2) is a Doctor of Medicine (1977), PhD (1985), Professor at the Faculty of Medicine, McMaster University (Hamilton, Canada); Professor at the Karolinska Institute (Stockholm, Sweden); Professor of the Department of Obstetrics and Gynecology, Sechenov University (Moscow, Russia).

Sam Schulman’s scientific and clinical activities are focused on the following areas: hemostasis; problems of the antiphospholipid syndrome; thromboses; issues of anticoagulant therapy, including cancer patients; hemorrhagic complications of anticoagulant therapy; oncothromboses, post-COVID thromboses; neonatal thrombosis. Professor Schulman is the author of over 481 scientific articles in high-impact peer-reviewed journals.

Sam Schulman is a Board Member of the International Society for Thrombosis and Hemostasis (ISTH), Treasurer, Chairman of the Finance Committee, Chairman of the ISTH Guidance and Guidelines Committee; co-chair of the ISTH SSC Subcommittee on Lupus Anticoagulant and Antiphospholipid Syndrome, Member of the World Federation of Hemophilia, American Society of Hematology, European Hematology Association. Professor Schulman received the following awards: World Federation of Hemophilia (1997), Investigator Recognition from ISTH (2001) for contribution to hemostasis, Distinguished Career Award from ISTH (2009), Harold R. Roberts Medal ISTH SSC (2017). Sam Schulman is the laureate of the following awards: the Leaders Circle Recognition Award (MTCC and Tourism Toronto) (2016) and the Pulsions Peer Review Award (2018, 2019). Professor Schulman is the Member of the Editorial Boards in international journals such as "Thrombosis and Hemostasis" of the International Society on Thrombosis and Hemostasis, the "Journal of Internal Medicine," "Acta Haematologica," and our journal "Obstetrics, Gynecology, and Reproduction."

Over the last two decades, Professor Jean-Christophe Gris and Professor Sam Schulman collaborated with the Department of Obstetrics and Gynecology at Sechenov University headed by Academician of RAS, Professor A.D. Makatsariya, including educational and research work.

The most prominent foreign scientists who have received recognition from the world scientific community have been elected as foreign members of the Russian Academy of Sciences during the general assembly of the academy followed by receiving the appropriate diplomas, and retain their lifelong status.

Foreign members of the RAS have the right to submit issues related to development of relevant areas of research and expansion of international scientific cooperation, as well as other scientific and scientific-orga-
